Subject: ANOTHER water line Leaking AGAIN

Well it happened again on Tana Tea Circle the Main line in the road leaking Again in the same area they fixed 6 8 10 weeks ago the same area they fixed last year and the year before? Why! Everyone knows that the water pipes are very old and just keep on breaking down, they eventually fix the leak (Known as Job Security) the road is dug up, then Patched up the repacked again. Stupid little patch work that they know will quiet people down for a little while until it breaks down and comes out again leaving another hole.

As I have said before and reported before water leaks all the time, you can drive down Tana Tea circle and see all the patch work in the different Areas. The Water work People Know about the OLD Water Pipes and how they are just breaking down.

We also have the highest water bills in Tega Cay and in South Carolina. The New Areas built in Tega Cay, THEY Do Not come under our Water Board, But a different Tega Cay Water Board. This new water bard Charges less per gallon of water than we do, they also asked for a water Increase in 2013 and were turned down. Our water board that charges more also asked for an increase in the water charges of 20 (AND WAS) Granted the Increase WHY, (Could it be something going on behind closed doors)

Nobody wants to take the blame for the water Problems or the Sewerage Problems all the people do is to say that they are trying, putting Bands aids on all the problems, contaminated water and sewerage spills into Lake, under normal conditions people would be charged and fined for polluting the lakes and areas, but nothing happens not even a slap on the wrist.

These 2 Major problems could in fact cause problems when selling our homes in Tega Cay Think about this?

Very Sincerely Stewart Gamble
